

Vietnam

With a rapidly growing population of almost 90 million people and sweeping changes in every aspect of society, Vietnam is opening up to the gospel like never before.

For years Vietnam was known to Christians as a “closed country.” However, through recent developments in political and economic policies, the predominantly young society is becoming more open than ever to a widened perspective on life and is seeking identity and purpose. Once considered closed to the gospel, Vietnam is now opening its doors.

God is working through these changes to touch the hearts and minds of the millions of unreached people throughout Vietnam. Nevertheless, Vietnam remains one of the most unreached areas in East Asia. By God’s grace, we believe we can play a role in reaching the unreached peoples of Vietnam.

Opportunities

With growing opportunities to reach out to people in both cities and rural areas, there is an urgent need for more workers to come and share the gospel. Our team members use different strategies due to the diversity in society and culture across the different regions of Vietnam, but we all share a common vision to see Vietnam transformed by the gospel.

Opportunities focused on the majority Vietnamese, the Viet Kinh, range from partnership with the local church to working with individuals and small groups, student ministry among the

planting, English teaching, youth outreach, prayer walking, rural development projects and many more.

We are looking for godly individuals to share every aspect of their lives and involve themselves with the people as living examples of Christ. Christians who want to share the message of Christ, pioneer in restricted areas, think strategically to reach neglected frontiers, build friendships, teach and mentor the current and next generation of local believers, or help field workers through support roles; these are the people needed

younger generation, church planting, English teaching, as well as community and business development projects focused on sharing the gospel.

Opportunities that focus on some of the 53 minority people groups that make up 14% of the total population include church

to reach the unreached of Vietnam.
